APPLICATION PROCESS

1. Application Process

To enroll a new case, your agency completes a single unified application form on behalf of all parties. The completed application is then routed to the Intended Parents and the Surrogate for review and e-signature.

1.1 Before You Start – Information Checklist

Please gather the following information before opening the application form. Having everything ready in advance allows you to complete the form without interruption. The online form does not save your progress, so collecting all information beforehand is essential.

Intended Parent Information

- Full legal name of one or both Intended Parents
- Date of birth for each Intended Parent
- Contact details (email address and phone number)
- Country of domicile / home country (where they hold a legal passport)
- Preferred plan selection
- Requested deductible
- Requested maximum
- Singleton or split embryo

Surrogate Information

- Full legal name and contact information
- Date of birth
- Social Security Number
- Health questionnaire responses (see eligibility criteria below)
- BMI at the time of application (or prior to embryo transfer)
- Date of transfer or estimated date of transfer
- Expected delivery date
- Preferred delivery hospital or facility name and location

Agency Information

- Primary contact name and email
- Your Agency ID (see below)

Your Agency ID

Your unique Agency ID for this program is: **[YOUR AGENCY ID]**

You must enter this ID on every new application. This is what ties each policy to your agency.

1.2 Surrogate Eligibility Requirements

For a case to qualify for coverage, the Surrogate must meet all of the following criteria as of the Date of Transfer:

- Between the ages of 20 and 40
- BMI of 33 or less
- At least one previous healthy birth
- No prior history of: preterm labor before week 37, pre-eclampsia or eclampsia, placental abruption, placenta previa, miscarriage beyond 16 weeks gestation, gestational diabetes requiring hospitalization, or diabetes
- No more than 3 prior Cesarean sections
- No more than 5 prior pregnancies
- No delivery within the last 9 months from the date of application

Coverage applies to singleton pregnancies only. Enrollment must occur between weeks 12 and 16 of gestation. Twin or higher-order pregnancies are not eligible.

If you have questions about these requirements or would like to request an exception for a particular surrogate, email the details of the exception along with the IP name and Surrogate name to surrogacy@mavericktpa.com.

1.3 Submitting the Application

1. Open the unified application form using this link: [Agency Application Form](#).
2. Enter your Agency ID when prompted.
3. Complete all sections: Intended Parents' information, Surrogate information, and Agency information.
4. Review and submit. Once submitted, each party (Agency, Intended Parents, and Surrogate) automatically receives their respective documents at the email addresses entered in the form. Documents are pre-populated — each party simply needs to review and sign.

What happens after submission?

1. Maverick Administrators reviews the application and confirms eligibility.
2. An invoice is sent to the Intended Parents.
3. Upon receipt of payment, a Welcome Kit and Policy Document are issued.
4. Maverick Administrators begins pre-arranging the delivery with the hospital selected by the Surrogate.

TIMELINE TO DELIVERY

2. Timeline: Application to Delivery

The following table outlines the full process from the initial application through the end of the coverage period. Use it to set expectations with the Intended Parents and to ensure each milestone is handled on time.

Timing	Milestone / Action	Who Acts
Weeks 12–16 of gestation	Agency submits the unified application form on behalf of the Intended Parents and Surrogate.	Agency
After submission	Maverick Administrators reviews the application and confirms eligibility.	Maverick Administrators
After eligibility confirmed	Invoice issued to the Intended Parents.	Maverick Administrators
Upon payment receipt	Payment confirmed. International wire transfers may take 2–5 business days to reflect.	Intended Parents / Maverick Administrators
Upon payment receipt	Welcome Kit and Policy Document issued to the Intended Parents.	Maverick Administrators
After issuance	Delivery pre-arrangement with the hospital begins. This process may take a few weeks to a couple of months depending on the facility.	Maverick Administrators / 6 Degrees Health
~Week 34 (approx. 6 weeks before EDD)	Agency and IPs receive the Delivery Facility Voucher and a reminder of upcoming steps. IPs should review their Welcome Kit and locate the Notice of Delivery form.	Maverick Administrators
5 days before EDD	Check-in email sent to the IPs to confirm any changes to the estimated delivery date.	Maverick Administrators
At delivery	IPs present the Delivery Facility Voucher at the hospital. Billing questions are directed to 6 Degrees Health — IPs should NOT make out-of-pocket payments at the facility.	Intended Parents

Timing	Milestone / Action	Who Acts
Immediately after birth	IPs complete the Notice of Delivery form as soon as possible so the newborn's ID card can be issued.	Intended Parents
After ID card issued	IPs use the ID card for all pediatric care. Providers can be located through the First Health Network.	Intended Parents
Day 45 after delivery	IPs receive a reminder about the coverage end date and are asked to confirm whether they are still in the United States.	Maverick Administrators
Day 60 after delivery OR return to Home Country (whichever is earlier)	Coverage period ends. IPs must complete the Return to Home Country Notification form if they have already returned home.	Intended Parents

Important: Enrollment Deadline

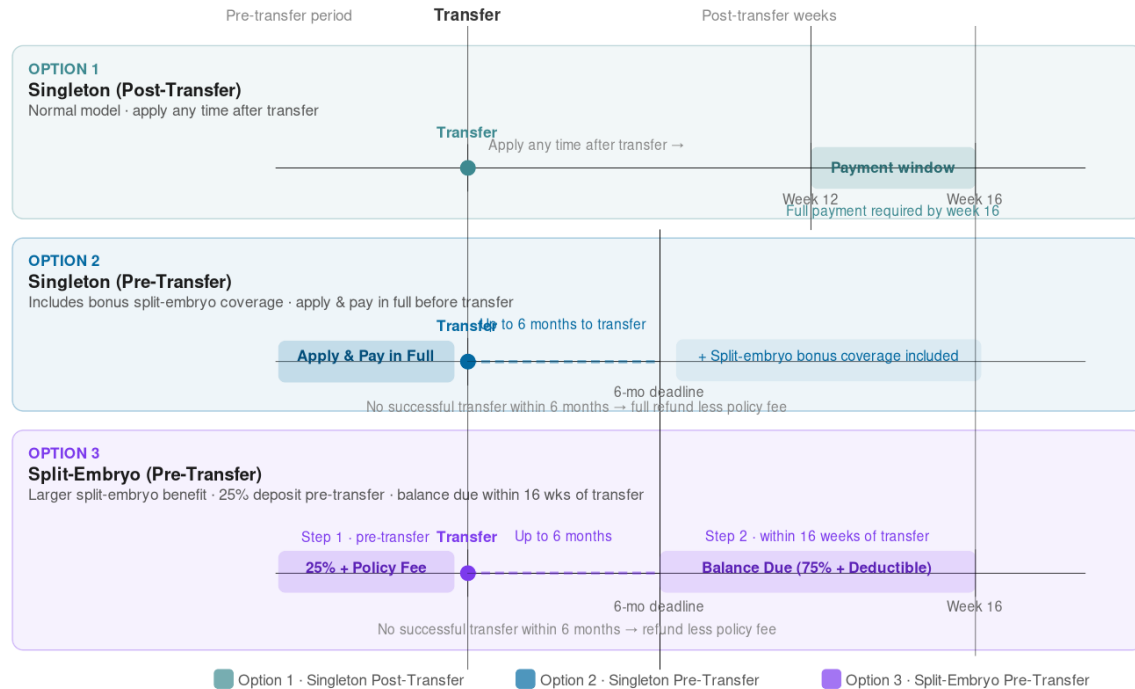

Applications MUST be submitted between weeks 12 and 16 of gestation.

Premiums must be submitted to Convex no later than 16 weeks from the Date of Transfer.

Late enrollments will not be accepted.

2.1 Payment Plan Options — At a Glance

This program offers three payment structures. The timeline below shows when applications must be submitted, when payments are due, and how the 6-month transfer window applies to each option.

Option 1 — Singleton (Post-Transfer)

- **Standard model.** The Intended Parents apply and pay after the embryo transfer has taken place.
- **Payment window:** Full premium must be received between weeks 12 and 16 post-transfer. Late submissions will not be accepted.
- **No pre-transfer action required.** The agency simply submits the application once the surrogate is confirmed pregnant.

Option 2 — Singleton (Pre-Transfer)

- **Apply and pay in full before the embryo transfer.** Both the application and full premium payment must be received by Convex prior to transfer.
- **Bonus split-embryo coverage included at no extra charge:** \$25,000 of split-embryo coverage on the \$50k and \$100k plans; \$55,000 on the \$250k and \$500k plans.
- **Transfer window:** IPs have up to 6 months from the date of payment to complete a successful transfer. If no transfer occurs within 6 months, a full refund is issued less the policy fee.

Option 3 — Split-Embryo (Pre-Transfer)

- **Largest split-embryo benefit available:** \$125,000 on the \$250k plan; \$250,000 on the \$500k plan.

- **Two-step payment:** IPs pay 25% of the premium plus the policy fee before transfer. The remaining 75% plus the deductible is due within 16 weeks of a confirmed successful transfer.
- **Transfer window:** IPs have up to 6 months to complete a successful transfer. If no transfer occurs within 6 months, a full refund is issued less the policy fee.

KEY FORMS & NOTIFICATIONS

3. When to Notify Us — Key Forms & Links

Throughout the journey, several notifications are required to keep the policy active and to ensure seamless coverage. Below are the forms your agency and the Intended Parents may need, along with guidance on when each should be submitted.

3.1 During the Pregnancy

Update Birth Plan / Delivery Facility

If the Surrogate's planned delivery hospital or facility changes at any point during the pregnancy, notify us as soon as possible so we can update the pre-arrangement with the hospital.

Form: [Update Birth Plan / Delivery Facility](#)

Miscarriage or Pregnancy Loss Notification

In the event of a miscarriage, stillbirth, or spontaneous abortion, please notify us promptly. The policy has specific cancellation and refund provisions depending on the timing of the loss:

- Losses before week 20 of pregnancy are classified as miscarriages.
- Losses at or after week 20 are classified as stillbirths.

In either case, 25% of the paid premium is retained by the Company following verification that no claims have been paid. The Self-Insured Retention Amount will be refunded.

Form: [Miscarriage / Pregnancy Loss Notice](#)

3.2 At Delivery

Notice of Delivery

This is the most time-sensitive notification. Once the baby is born, the Intended Parents must complete the Notice of Delivery form as soon as possible. This triggers the issuance of the newborn's ID card, which is required for all pediatric care following discharge.

Form: [Notice of Delivery](#)

3.3 After Delivery

Return to Home Country Notification

Coverage under this policy remains active until the Intended Parents return to their home country OR 60 days from the date of birth — whichever comes first. When the IPs depart the United States, they must complete this form so we can formally close the coverage period.

Form: [Return to Home Country Notification](#)

Coverage End Reminder

Coverage ends on Day 60 after birth OR upon return to the home country — whichever is earlier.

If the Intended Parents are still in the United States on Day 45, a reminder email is sent to them automatically.

Please encourage IPs to complete the Return to Home Country Notification promptly upon departure.

3.4 Cancellation Requests

If the Intended Parents wish to cancel the policy, the following refund schedule applies:

- Within the first 10 days of enrollment: 100% of the premium refunded, plus the Self-Insured Retention Amount. Policy issuance fees are non-refundable.
- Between days 11 and 30 of enrollment: 50% of the premium refunded, plus the Self-Insured Retention Amount. Policy issuance fees are non-refundable.
- After day 30: No premium refund. The Self-Insured Retention Amount will be refunded.
- Failure to fund the Self-Insured Retention Amount by 60 days before the expected delivery date results in automatic cancellation with no refund of any fees or premium.

To request a cancellation, contact us directly at surrogacy@mavericktpa.com.

FREQUENTLY ASKED QUESTIONS

4. Frequently Asked Questions

Q: Which hospitals are covered under this plan?

This policy does not restrict coverage to a specific list of hospitals. The Intended Parents may receive medically necessary covered services for their newborn at any qualified hospital within the 48 contiguous United States and the District of Columbia — whether in-network or out-of-network — as long as services are coordinated and pre-certified by Maverick Administrators.

The key distinction is how costs are calculated:

- In-network, pre-certified services are covered at 100% up to the policy maximum. The IPs are not responsible for any difference between the allowed amount and what the provider bills.
- Out-of-network services are covered up to 200% of the Medicare reimbursement rate. IPs may be responsible for any amount the provider bills above that rate (known as Balance Billing).

Coverage does not apply to services received outside the contiguous United States.

Q: What is the Self-Insured Retention (SIR) amount, and what does it mean?

Think of the SIR as a pre-funded deductible that must be deposited in full into a designated escrow account before policy benefits become payable.

The SIR is intended to cover the first portion of medically necessary newborn expenses. Once the SIR is exhausted, the policy then covers the remaining eligible expenses up to the limit of liability.

Q: How do the Intended Parents see a provider after discharge?

After the newborn is discharged from the hospital, a newborn ID card is issued (once the Notice of Delivery form has been completed). This ID card must be presented at any subsequent pediatric visit.

To find in-network providers under the First Health network, IPs should use the [First Health Provider Search](#) tool (link included in the Welcome Kit and in the Week 34 touchpoint email).

If IPs choose a provider outside the First Health network, coverage can still apply — but the IPs should present their ID card at the visit so the provider can contact Maverick Administrators to confirm coverage. Out-of-network costs may be subject to Balance Billing as described above.

Q: When might Intended Parents need to pay out of pocket and seek reimbursement?

In most cases, Intended Parents should not need to make out-of-pocket payments at the delivery facility. The Delivery Voucher handles all billing directly through 6 Degrees Health. Please remind IPs: if anyone at the facility asks them to pay, they should refer the staff to 6 Degrees Health using the information on the voucher.

Situations that may require reimbursement include:

- Services that were not pre-certified and that are later reviewed and approved on a post-service basis — processing timelines may vary.
- Emergency services where the provider was contacted outside of normal business hours. IPs should still notify the Administrator within 72 hours of any emergency.

To submit a reimbursement claim, proof of claim (itemized bills and completed claim forms) must be submitted to Maverick Administrators within 90 days of the service date.

Q: What is NOT covered by this policy?

This is a limited-benefit policy specifically designed to cover medically necessary newborn medical expenses. Common exclusions include:

- Prenatal genetic testing or counseling
- Costs related to a surrogate breach of contract
- Twin or higher-order pregnancies (not eligible for coverage)
- Services outside the 48 contiguous US states
- Experimental or investigational treatments
- Non-prescription drugs, vitamins, or supplements
- Cosmetic procedures (unless medically necessary to correct a birth defect)
- Breastfeeding-related equipment and supplies
- Televisions, baby monitors, cribs, sleep-assist devices, or similar equipment
- Missed appointment fees

For the full list of exclusions, refer to the Policy Document provided to the Intended Parents at issuance.

Q: What are the limits of liability?

The maximum benefit under this policy is \$500,000 or \$250,000 (depending on the IPs' selection during the application process) per newborn, per occurrence — applicable to all covered claims during the coverage period (from the moment of birth through Day 60 or return to the home country, whichever is earlier). This limit applies after the Self-Insured Retention Amount has been fully exhausted.

Q: What if the Intended Parents are international?

This policy is designed specifically for international Intended Parents whose surrogate is carrying in the United States. Coverage applies within the 48 contiguous US states only. Once the Intended Parents and their newborn return to their home country, coverage ends.

International wire transfer payments may take 2–5 business days to be reflected on our end. Please advise IPs to allow for this processing time when making the initial premium payment.

Q: How do we reach the team with questions?

For questions related to a specific case, billing, or policy details, contact the Maverick Administrators team:

Contact	Details
Shared Inbox	surrogacy@mavericktpa.com (monitored by the account management team — fastest response)
Administrator	Aaron Flewellen, President — Maverick Administrators aaron@mavericktpa.com
Hospital Billing / Vouchers	6 Degrees Health (contact information is included on the Delivery Voucher)

Important Legal Notice

This policy provides limited contractual liability reimbursement indemnity and should not be considered basic hospital or major medical health insurance coverage. Unless otherwise agreed, this policy shall be considered primary to any known or existing medical insurance. Indemnity is only payable in excess of the Self-Insured Retention Amount.

This policy is issued on a non-admitted or surplus lines basis and is underwritten by Convex Insurance UK Limited, authorized by the Financial Conduct Authority and Prudential Regulation Authority (UK). Convex North America Insurance Services LLC has been granted binding authority by the Company.

This guide is for informational purposes only. The actual Policy Document and Declarations Page govern all coverage determinations.
